---

In commemoration of the 50th running of the Equinox Marathon, the Equinox Marathon organization will be producing for sale a high-quality, signed and numbered print by noted local artist Kesler Woodward.

The suitable-for-framing work will be printed on high-quality stock and will capture the character and spirit of the Equinox course and event.

We are still working on the quantity to be produced and the sale price. However, we believe that these prints will be something that anyone with a love for the Equinox Marathon will want to have one on their wall at home.

We plan on selling these prints at bib pickup on Thursday and Friday nights, and at the awards banquet on Saturday night. We are not sure if we will be able to sell these through this website, but will investigate that option.

Watch this space for more information on this print as we get closer to the race.
