If you've been looking for results from past years and have been unable to find what you're looking for, we have just updated results from 1997 forward. All results are in PDF format.

At this time, we have marathon results from 1997 through the current year, and relay results from 2001 through the current year. Complete results packets with all statistical and historical data and notes are available from 2005 forward. The complete results packet files are big files - from about 1 megabyte on the small end to about 2.5 megabytes on the large end.

We will continue to work to produce results from earlier years.
