The chart above includes data for the fastest Equinox Marathons for which split-timing data is available. This table includes six of the seven fastest women's times, missing only Tina Devine's 3:21:21 in 1999.

As you can see, most of the segment times are quite close -- but there are a few that stand out. Julie Udchachon is the fastest starter, with the two fastest times to the Ballaine/Yankovitch intersection. Susan Faulkner's time for the segments between Ballaine/Yankovitch and the bottom of Ester Dome are the fastest by a substantial margin; her combined time for those two segments is 49 seconds faster than the next fastest (Jane LeBlond in that same fast 2002 race). The times for ascending the Dome are fairly consistent: Udchachon ('04), Johnson, LeBlond ('02 and '01) are all within 8 seconds. Only Laura Brosius' 2008 time is far off the mark.

Brosius ('09) also has the slowest out-and-back time of these runners. With the excepsion of Brosius in '08 and '09 and Udchachon in '04, the remaining five times are all within 40 seconds of one another. Brosius made up for her relatively slow ascents and out-and-back segments with a blazing run-in that equaled Faulkner's 2002 standard. Johnson's '07 run-in was only 17 seconds off that pace. Udchachon ('05) and LeBlond ('02) were also within a minute of that pace.

If you add up all the fastest segments, the total time is 3:17:17 - only 59 seconds faster than Faulkner's record; summing the second-fastest times for each segment equals 3:18:12, only four seconds ahead of the record. Considered in those terms, the record is impressive, indeed.

The chart above includes data for the fastest Equinox Marathons for which split-timing data is available: all but one of the sub-2:51:30 times run since 1986. The only fast run during that period for which we are missing information is Kevin Brinegar's 2:47:29 in 1999. If we had the data from that race, Mike Kramer, Harald Aas and Kevin would all have two races on this table. Matias Saari has three ('05, '07, '09). Henderson-Gold Hill split time information is available only from 2006 onward.

The most interesting thing in this table is that Mike Kramer's 2007 times are the fastest split times for each timing point beginning with the top of Miller Hill (5.68 miles), but the only segment from that run for which he has the fastest segment time is the stretch from the top of Miller Hill to the bottom of Ester Dome. In 2006 he produced the fastest segments from Ballaine/Yankovitch to Miller Hill and for the out portion of the "Out-and-Back."

Kevin Brinegar had the fastest start, clocking 14:20 to Yankovitch Ballaine. During his 2006 run (2:51:25) Daniel Shaw recorded the fastest ascent of Ester Dome. His Ester Dome ascent in 2006 is 55 seconds faster than the next-fastest ascent on this chart. Shaw's "Out-and-Back" best time of 29:54 is 59 seconds faster than the next-fastest on the chart (Saari - 30:53 - 2007). Saari has a fast return on the "Out-and-Back", and has the fastest run-in from the top of the Chute - 54:01 (2007) - three seconds faster than Aas ran the following year.

If all the fastest segments are summed, the total is 2:44:26, which would be the 4th-fastest time ever, bettered by Stan Justice in 1984 (2:41:30) and by Pat Cross and Stan Justice in 1983 (2:42:20 and 2:43:28, respectively). Too bad we don't have the split time data from the Golden Years.

A NOTE ABOUT FLINT HILLS CUP POINTS:
Please note that Flint Hills Cup Points are awarded based upon a runner's Flint Hills Cup class. Flint Hills Cup classes are assigned based upon a runner's age on May 1 of the competition year. A runner's Flint Hills Cup class may differ from the class a person is in for a particular race. Therefore in many cases there may be duplicate numbers or otherwise out of sequence numbers in the "points" column. These numbers, although they appear to be incorrect, are not incorrect. Thanks.

Spirit of the Equinox Award

The Spirit of the Equinox Award was established in 1986 in memory of George Bloom. Georgie ran the Equinox Marathon 18 consecutive years and felt that it was the ultimate running event. The award is to exemplify what Georgie stood for in the running community – someone who was always willing to lend a hand, organize a race, offer an encouraging word, and was quick with a smile and a wave.

The award recipients are selected by a committee consisting of the members of the local running community and one person from Georgie's immediate family. The recipients of this award are not required to have run the Equinox Marathon. In fact, they need not even be runners. The committee bases their selection of the recipient on these criteria:

1. Contribution to the running community.
2. How inspirational the recipient is to others
3. Overall attitude and enthusiasm toward others

from the 2009 race
by John Estle

Settle in – I'm unusually verbose this year, even by my bloviating standards.

New Event

It's been 20 years since the Equinox Marathon added a relay, which has grown to well over 100 teams. This year saw another major change in the race with the addition of an ultramarathon of 50Km.

Registration Information

The overall trend for the total number of participants in the race is one of slow growth over the past three years. This year's total number of participants is 899, up from 851 in 2008 and 825 in 2007. Participation in the marathon shrank for the second consecutive year, from 558 in 2007 to 527 last year and 473 this year. However, this year the total number of entries in the marathon and ultramarathon combined (473+54) equaled last year's total for the marathon. Looks like a zero-sum game, at least in the short term.

There were 54 entrants in the ultramarathon – 30 men and 24 women. The women had a remarkable 100% finish rate, while 23 of the men finished – a little better than 75%.

The relay continues to grow, from 108 teams last year to 124 teams this year. The relay has doubled in size in three years: 2006=62, 2007=89, 2008=108, 2009=124. The numbers in the relay held steady from 2001 through 2006, with between 55 and 64 teams each year, before this recent surge in field size, which coincides, not coincidentally, with the Team in Training participation, much of which is in the relay.

Where they Came From

Their were four foreign participants in the race – marathoners from Austria, Great Britain and Japan, and a relay runner from Germany.

Thirty out-of-state runners participated, including 15 marathoners (2xCA, GA, IA, MA, ME, MN, NC, NY, OH, TX, 3xWA, WY), six ultramarathoners (2xCA, NY, OR, 2xWA), and nine relay runners (3xCA, CO, NC, OR, 3xWA).

One hundred five Anchorage runners made the 600Km trek north: 59 marathoners, 7 ultramarathoners, and 39 relay runners. Add in two marathoners and two relayers from Chugiak, three marathoners, an ultramarathoner and three relayers from Eagle River, a marathoner from Elmendorf and one marathoner

and one relayer from Girdwood and that makes 119 runners from the "muni" in the Equinox, about 13% of participants.

The biggest crowd came from Fairbanks – 551 participants. Other well-represented communities: Ft. Wainwright 39, Ester 8, North Pole , Eielson AFB 16, North Pole 53, Palmer 11, Wasilla 6, Kotzebue 6.

Finish Distribution

There was a bigger-than-normal spike in the 4:30-4:59 range, with 68 finishers to make it the busiest 30-minute period at the finish. The 30-minute segments on either side were considerably lower (45 in the previous 30 minutes; 48 in the following 30 minutes). Ther was a moderate surge with 57 finishers in the 5:30-5:59 range.

Multiple and Consecutive Winners

Both the multiple and consecutive winners list changed this year. Laura Brosius added her name to both lists, with her second consecutive win being her second win overall. Matias Saari added a second win to his palmares, and did not become the runner with the most second-place finishes in the history of the race.

Winning Times

Thirteen was the lucky number for Saari and Brosius, as both champions recorded the 13th-fastest winning times in the history of the event.

The eight fastest women's times have all come since 1998. Only Nancy Felix' winning time in 1989 (3:25:19) and Mari Shirazi's winning time in 1995 remain in the top 10 from races prior to 1998.

On the men's side it's just the opposite, with only Mike Kramer's 2:47:2 in '05 and Kevin Brinegar's 2:47:29 in '99 among the top 10 from races since 1998. However, the 11th through 16th-fastest times have all occurred this century, so when you look at the 16 fastest male winners, things even out between eras.

Victory Margins

Laura Brosius cushion over runner up Melissa Lewis (3:03) was the 9th-closest margin ever from women. Saari's 3:45 advantage over Stensland placed them right in the middle of the pack – 23rd fastest of 46 races.

Course Records

Twenty-five races have been run since the men's record of 2:41:30 was set by Stan Justice. Susan Faulkner's 2002 time of 2:18:16 has stood for seven years.

Winners' Ages

At age 39, Saari became the second-oldest winner among men, younger only than Bob Murphy who won his sixth and final Equinox title in 1994 at age 42. If Saari wins again, he would become only the second male runner to win after turning 40.

Laura Brosius was the 29th-oldest/17th-youngest winner among women. More remarkably, she became the only person ever to win the race twice at the same age, turning 24 on the day of the 2008 race and not turning 25 until the day after this year's race.

Age-Class Records

Jim Madonna broke his on 70-75 age class record by a whopping 27:46 – more than a minute a mile. Fifty-five-year-old Mary Barrett broke one of Marcie Trent's three age class records (55-59, 60-64, 65-69), with a 3:56:50, 14:53 faster than Trent's 32-year-old (1977) time.

Last year three men's age-group records were broken, but no women's age-group records were broken.

Year-by-Year Age Records

Two men's records (ages 39 and 71) were set, and seven women's records were established (ages 39, 47, 54, 55, 56, 65, 72). This makes a down year after 2008, when 16 age records were broken eight men's records (40-45-50-51-55-61-69-70) and eight women's records (10-24-31-54-57-62-64-73). It seems obvious that we have a lot of action in the masters' ranks, but not so much below age 40.

Matias Saari elbowed Nat Goodhue out of the top spot for 39-year-olds with a 2:51:05, surpassing Equinox Marathon founder Goodhue's 30-year-old 2:58:52. Jim Madonna knocked a substantial two hours plus off Jack Townshend's age 71 record. Madonna's time was also a 70-75 age class record, and is one of three age records he owns (68-70-71). Saari owns only the age 39 record, but has his eye on the times in the early 40's, including Bozanich' age 44 mark of 2:58:01.

New Men's Age Records

Age	Name	Place	Time	Old Record Holder	Year	Years	Place	Time	Diff.
39	SAARI, Matias	1st	2:51:05	GOODHUE, Nat	1979	30 Yrs	3rd	2:58:52	7:47
71	MADONNA, Jim	82th	4:27:50	TOWNSHEND, Jack	1998	11 Yrs	182nd	6:28:31	2:00:41

Melissa Lewis shaved 42 seconds off Tina Devine's 3:33:20 time from 2001. Mary Barrett broke a 36-year-old mark by Marcie Trent for age 55, which cushioned somewhat Barrett's loss of the age 47 and age 54 records to Amy Dalton and Jane Lanford, respectively. Dorli McWayne broke Trent's slightly younger 1974 record for age 56. Monte Jordan broke Doris Cooper's age 65 record (Jordan now holds the age 64 and age 65 records) and Cooper in turn smashed Barbara Wuttig's age 72 record by more than two-and-a-half hours.

McWayne is one of the most prolific of age-record holders, currently on top of the rankings for ages 51, 52, 53 and 56. Lanford also owns the age 48 and age 50 records in addition to her new age 54 honors. Cooper is on top for ages 70 and 72. Trent still rules with records for ages 58-59-60-61-63-68. Remarkable.

100 Fastest Women's Times

Five women joined the top 100 list this year. Besides Brosius 3:29:35/16th-fastest, Melissa Lewis (3:32:38/24th), Charity Walker (3:33:28/26th), Cortney Kitchen (3:43:35/68th) and Amanda Copus (3:48:00/96th) made the grade.

Gone from the women's list are Georgia Gustafson, Tina Devine's 3:49:09 from 1995, Kim Johnson, Pat Kling's 3:49:11 from 1986, and Eve Newman. Devine and Kling remain on the list with times that will not be bumped for several years.

100 Fastest Men's Times

Saari now has five times on the top 100 list, ranks 15-17-18 (this year's 2:51:05)-27-41. Not a bad record. Stensland's time was good enough to put him on the top page of the list in 37th place. Third-place finisher Tom Ritchie's time was 15 seconds too slow to join the list.

Bumped from the men's list were PJ Hill and Ken Zaklukiewicz.

25 Fastest Men and Women

Equinox rookies Melissa Lewis and Charity Walker moved into the 15th and 16th positions on the list of fast women. Brosius '08 time placed her in 4th all-time.

Stian Stensland was the only man to join the list, slotting in at the #16 position. Saari added to his number of fast times, and remains the sixth-fastest runner of all time.

Sub 3:45 / Sub 3:00 Clubs

Lewis, Walker and fourth-place Cortney Kitchen (3:43:35) became the 39th, 40th and 41st members of the women's Sub-3:45 Club. Stensland was the only male to join the Sub-3:00 Club, becoming the 29th man to break the three-hour barrier.

Benchmark Times/Depth at the Top of the Field

The men's race was pretty typical of the past several years. Beginning with the 1998 race, there have been one, two or three men under 3:00 each year, and this year there were two under the magic mark.

The women's race was also fairly typical of the period beginning in 1998. Since that time there have been 47 times under 3:45:00, an average of just under four per year; this year four women surpassed that standard.

Fast Top 10 Times

Brosius' 13th-fastest winning time was the only time in the women's top 10 that wasn't one of the 10 fastest all time for her place. Lewis had the 6th-fastest runner-up time, Walker was 3rd-fastest for third place. Others: Kitchen 7th-fastest in 4th, Amanda Copus 6th-fastest in 5th, Amy Dalton 7th-fastest in 6th, '08 runner-up Davya Flaharty 6th-fastest in 7th, Jenny Mahlen 4th-fastest in 8th, Amy Johns 4th-fastest in 9th, and Jane Lanford 3rd-fastest in 10th.

No men made the top 10 top 10 with their performances in the 2009 race.

Who Da Man? / Who Da Woman?

With her win, Brosius moved up into a tie for 12th place in the "Who da Woman?" list. Among those with whom she is tied are double-champions Sue Chapman, Nancy Felix, Carol Hogins, Mari Shirazi and Julie Udchachon. If Brosius runs next year and places fifth or higher, she will move into the top 10.

There were no meaningful changes in position on the men's list, but Saari has moved into elite territory on the men's list, with 53 points, putting both Mike Kramer (57 points) and Kevin Brinegar (60 points)

within range of a good race in 2010. Only Justice (88 points) and Murphy (85 points) are above Brinegar.

Quality Streaks

Though Saari has won the Equinox only twice, his record over the past seven races is arguably the second-best long, consecutive-year streak among male runners, second only to Stan Justice' eight-year streak from 1980-1987.

During Justice' streak he recorded six wins and two second-place finishes, and ran under three hours each year, and under 2:50 six of those years. Saari's streak of seven years includes two wins, four runner-up finishes, one third place, and five consecutive sub-3:00 times, one of which was under 2:50.

The overall records of Murphy, Brinegar and Kramer may be superior to Saari's, but their records included interruptions. Brinegar's longest streak of continuing finishes was three years (three wins), Kramer did the same; Murphy had two wins and a second in three years. None made it four straight years.

There are several women with long consecutive streaks: Tina Devine (eight years, four wins, a 2nd and a 3rd), Bobbi Fyten (seven years, three wins, two seconds), Pat Kling (seven years, two wins, two seconds, two thirds). A number of women have shorter, high-quality streaks of three to four years.

"Dinner Service"

Andy Holland brought to my attention that only two runners in the Equinox Marathon have achieved a complete "dinner service" – i.e. getting one of each of the five sizes of trophy plates awarded to the first five finishers. Only Pat Pyne and Tina Devine have finished in all of the first five places. No one joined that elite club in '09.

Among those who are still active who are only missing one piece of the dinner service are: Kristen Bartecchi Rozell (no 1st place), Michelle Mitchell (also lacking a winner's platter), Susan Faulkner (no 2nd-place plate); for men: Mike Kramer (no 5th-place), Matias Saari (no 4th Place) are the only runners with a shot at the whole set over the next few years.

Oldies But Goodies

Mike Kramer's 2nd year in the 40+ group was a pretty good one, with a 4th-place finish, but he missed out on his objective of breaking Frank Bozanich' 1988 record in the 40-45 class.

John Weddleton and Joel Wattum were pretty spectacular in the 50-55 class, finishing 10th and 11th. Weddleton is amazingly consistent: 2003-10th, 2005-10th, 2006-11th, 2007-12th, 2009-10th. And he was six years older in '09 than when he finished 10th in '03.

Gary Holton (40-44) was 12th, Wayde Leder (50-54) 15th; Jeff "Yellow Jacket" Arndt was the top finisher in the 55-59 class, with a 20th place. Jim Madonna had a super race and set an age-class record with a 4:27:50 at age 71. Jim was the only male to set an age-class record.

Four 40+ women finished in the top 10: Amanda Copus (40-44) 5th, Amy Dalton (45-49) 6th, Amy Johns (45-49) 9th and Jane Lanford (50-54) 10th. Mary Barrett's 12th-place finish in 3:56:40 was also an age-class record, the only women's age-class record set in 2009.

Besides Barrett's outstanding performance, the second 10 was also heavily populated with 40+ runners: Jane Baldwin (45-49) 13th, Dorli McWayne (55-59) 14th, Karol Fink (40-44) 17th, Marcia Martin (50-54) 18th, and Tina Devine (45-49) 20th. Half of the first 20 women finishers were over 40.

Streaks and Multiple Finishes

Corky Hebard, Bob Baker, and Tom Wickwire continued to add on to their impressive total of Equinox Marathon finishes. Hebard recorded his 38th finish (including a few hiking finishes), Baker his 31st, and Wickwire, after taking last year off to attend a niece's wedding in 2008, his 29th. Hebard is 67 and Wickwire is 65. Baker is a youngster at age 51.

If you know of any other such streaks, please bring them to my attention.

Ultramarathon

This year marked the first year of the addition of an Ultramarathon to the multifaceted event that the Equinox Marathon etc. has become.

There's no history against which to compare this year's ultramarathon data, so I thought I would compare it with this year's marathon data. The easiest thing to compare is pace per mile. It would naturally be expected that the pace per mile for the 50Km runners would be somewhat slower than that for the marathoners (42.195Km). To investigate the difference, I looked at data for the first five men in each race and the first five women in each race. The differences in pace between the two events varied greatly between the men's race and the women's race.

In the men's races, the marathon men were WAY FASTER per mile than were the ultramarathon men. The difference per mile pace varied from 1:14/mile (the difference between ultra champ Rorik Peterson and Matias Saari) to two minutes per mile (ultra 4th place finisher Eric Schmidgall and Mike Kramer). The average pace for the top five in the ultra was 8:35/mile, and in the marathon it was 6:57.6/mile, a difference of 1:37.4/mile, or 23.3% slower for the ultramen.

The women's paces were much closer between the two distances. Laura Brosius' 7:59.6 pace was only 13 seconds/mile (2.7%) faster than ultra champ Robin Beebee's 8:12.7 pace. That was the narrowest difference, but the widest difference was only 55.2 seconds/mile. The average pace for the ultrawomen was 8:58.6/mile only 41 seconds per mile slower than the 8:17.6/mile for the marathoners.

So, either our marathon women run slowly relative to our marathon men, or our ultramen run slowly compared to the ultrawomen. In the marathon, the women's pace was 1:20/mile or 19.2% slower than the men. In the ultra, the women were 23.6 seconds/mile or 4.6% slower than the men. Hmmmmmmmmm.

Women's world best times for marathon and 50Km are 9.2% and 15.3% slower than men's world bests, respectively. Because the Equinox Marathon's profile of big climbs and rugged terrain place a premium on strength, it would be expected (men having more muscle mass than women, hence more strength) that that gap would be a little bigger in the Equinox than on a dead-flat, paved marathon course.

We have many, many years of data for the marathon. The women's times in the marathon went through a period of rapid improvement several years ago, and now seem to be stable, although generally trending toward improving in depth over the past several years. With that in mind I think that the gap in the marathon between men and women is pretty reasonable. While that in the ultra is pretty thin. My opinion is that our ultramen ran a bit on the slow side relative to our ultra women.

Robin Beebee was third among all women (marathon and ultra) at the second checkpoint, was third to Ullrhavn, third after the Out-And-Back (only two minutes behind Brosius and 3:17 behind Walker, who was leading at that point). She was still third or fourth at the point just past 25 miles where the two courses diverged. Similarly,

Erica Pohl and Laura McDonough, 2nd and 3rd in the ultra, respectively, spent much of the race mixed in with the first 10 women in the marathon.

Peterson, on the other hand, was nearly six minutes off Saari's pace by the top of Miller Hill (checkpoint 2) – more than a minute a mile – and was 12 minutes behind at Ullrhavn (12.4 miles). By the 17-mile mark, at the top of the Chute, Peterson was 17:41 behind Saari, Runner-up Evan Hone was 23:04 behind marathon runner-up, and third-place Bruce Miller was 32:15 behind Tom Ritchie, third in the marathon. Those are some serious gaps.

For further evidence, included in the results packet is a combined results list with men and women sorted by time in a single list. The top five women placed 3-5-6-8-10, had 10 of the first 21 and 12 of the first 25. Compare this with the marathon where Brosius placed 20th overall, and there were three women in the first 35 and seven in the first 50. Clearly the populations of the races were somewhat different, which accounts for some of this difference – but not all of it.

I am in no way attempting to denigrate the efforts of the ultramen; rather I'm just trying to account for an interesting phenomenon. If anyone has any other thoughts, I would love to hear them. See the next page for the data pertaining to this discussion.

Relay Notes

Only two teams made the top 10 in their gender classes, Team FAST (Werner Hoefler, David Norris, Roger Sayre) won the Open Men's class in 2:44:13, the second-fastest men's performance of all time, behind last year's "Aas-Kickers" 2:42:54.

Jane LeBlond, Lisa Beattie and Heather Best ("Saving the Best for Last") recorded the third-fastest women's time of 3:30:08, 2:47 slower than the 1997 record set by the "Ski-Runners."

David Norris was the only relay runner to set a record for his or her leg, with a 58:20 for the very rugged leg 2. This was 2:01 faster than Marius Korthauer's 1:0021 of last year. Three other men and seven women moved into the top 10 for their legs.

Norris' teammate Werner Hoefler ran the second-fastest first leg, only three seconds off Kevin Donley's 10-year-old record. The third member of the team, Roger Sayre, was fifth-fastest for the anchor leg – not bad for an over-50 runner.

Among women, Jane Leblond (1:00:52) had the third-fastest first leg of all time (behind fellow champions Laura Brosius' 58:58 (2007) and Susan Faulkner's 59:32 (2003). Leblond's teammate Heather Best posted the fourth-fastest ever anchor leg. The holder of the two fastest anchor leg times for women is none other than Mara Rabinowitz, the 1979 champion at age 12. She recorded her relay times in 1999 and 1996.

Other women moving into the top 10 all time for their legs were Nellie Ballou (8th-fastest second leg) and anchor leg runners Debbie Cropper and Krista Heeringa – 6th-and 7th-fastest, respective.

Split Times Notes

Women's Race

The women's race started out looking at least as boring as the men's race. Brosius was ahead of Faulkner's record pace at the first checkpoint (Ballaine/Yankovich), but lost a few seconds per mile to fall behind record pace by the second (Yankovich/Miller Hill) and third checkpoints (Ester Dome/St. Patrick's Road). Then things started to get interesting.

Charity Walker tore it up on the ascent of Ester Dome to checkpoint four (Ullrhavn) with a time of 33:50, more than three minutes faster than Brosius, who had the fourth fastest-ascent (36:56). Brosius was looking a little peaked at the summit of the Dome before starting the Out-And-Back, and Walker was looking strong. Under the

radar, eventual runner-up Melissa Lewis had the second-fastest ascent (34:58) and moved up from ninth at the St. Patrick's road to fourth at Ullrhavn.

Walker continued strong on the Out-And-Back, gaining 57 seconds on Brosius on the way out and another 46 seconds on the way back. Lewis was really picking up steam, running the fastest time from Ullrhavn to the Turnaround, seven seconds faster than Walker. Lewis gained 63 seconds on Walker on the way "back" and 1:49 on Brosius over the same stretch.

Out-And-Back times: Lewis: 38:14, Walker: 39:23, Cortney Kitchen (4th woman): 40:22, Brosius: 41:06. Amanda Copus (5th woman) was 41:50. Lewis' time is similar to Julie Udchachon's effort in her 2004 victory (38:13). Sub-38 minute times were recorded by LeBlond in '01, Faulkner (37:15) and LeBlond in '02, Udchachon in '05 and Brosius last year.

At the top of the Chute it was Walker with 1:17 in hand over Brosius and 5:20 (that's right, 5:20!) over Lewis. Walkers quads headed south in a hurry, and Brosius was able to pull her into close proximity by the left-hand-turn at the bottom of the chute, taking over the lead shortly thereafter.

After suffering mightily ascending Ester Dome and running the Out-And-Back, Brosius was now back on track plummeting from Ullrhavn to Gold Hill Road in 30:28, over a minute faster than the second-fastest woman (Lewis, 30:30) and 93 seconds faster than Walker.

As she hit Gold Hill Road, Brosius had 15 seconds on Walker and was pulling away. Walker had 4:50 on Lewis. It would take a super effort from Lewis, combined with a substantial crash from Walker for Lewis to make up nearly a minute a mile over the final stretch but she did it with a 34:27 for the final leg. This was 2:02 faster than Brosius, but, more importantly 5:40 faster than Walker, whose time of 40:07 was the sixth-fastest for that segment.

Run-in times (top of the Chute to the finish, nine-miles): Lewis: 1:05:58, Brosius: 1:07:57, Walker: 1:12:08, Copus: 1:12:44, Flaharty: 1:13:38, Kitchen: 1:13:59. By comparison, the fastest run-in for which we have data is 1:04:16, by both Susan Faulkner in '02 and Laura Brosius in '08. Lewis' time is similar to the 1:05:40 recorded by Jane LeBlond in her 2001 victory.

Men's Race

The men's race was nowhere near as interesting as the women's race. Saari pulled into the lead early in the race and remained there for the whole distance. Ditto for Stensland in second. Kramer and Ritchie had a bit of back-and-forth in their battle for third place, won by Ritchie. Mark Lindberg was near the front for the first quarter of the race before dropping out – he said he didn't have it and couldn't see beating his head into a wall.

Fifth-place Drew Harrington was the only runner in the top seven who worked his way up through the pack, starting out 12th at the first checkpoint, 11th at Ullrhavn (the one-place improvement due to Lindberg's exit), then gradually working his way upward through the bottom half of the top 10, closing with the fourth-fastest run in from the last checkpoint at 20.5 miles to move into the top five.

Eighth-place finisher Jesse Carlstrom made the biggest moves upward during the race. He held places 24, 28 and 25 at the three checkpoints to the bottom of Ester Dome, then was 20th at Ullrhavn and the Turnaround. On the "back" portion of the Out-And-Back he gained seven places to 13th, knocked off three more places on the plunge from the top of the Chute to Gold Hill Road, and passed two more runners over the last 5.5 miles to the finish.

Out-and-Back times: Saari: 31:50, Stensland: 32:08, Kramer: 33:14, Ritchie: 34:42, Harrington: 35:58, Carlstrom: 36:21. Fifty+ John Weddleton recorded a noteworthy 36:54.
Daniel Shaw's 29:54 in 2002 is the only sub-30 for which we have data, although legend has it that Stan Justice recorded a time in the mid-28's in one of his victories. We have data for at least seven Out-And-Back times superior to Saari's 31:50 – including two by Saari (30:53 in 2007, 31:17 in 2005).

Run in times for the top 10: Saari: 54:45, Stensland: 57:30, Ritchie: 59:49, Kramer: 1:03:32, Harrington: 1:03:20, Mark Brady: 1:07:06, Shane Hargis: 1:06:29, Jesse Carlstrom: 1:03:52!, Jeff Wells: 1:04:52, John Weddleton: 1:08:25.

Saari's 54:01 in 2007 is the fastest run in for which we have data, with Aas' 2008 54:04 second-best among the four previous sub-55 run-in times – Saari recorded the fifth sub-55 this year.

Among the biggest fades were Brady, 19th-fastest over the last 5.5 miles, and Weddleton, 23rd-fastest. Weddleton almost lost his 50-54 class title to the fast-closing Joel Wattum, whose 34:28 was almost four minutes faster than Weddleton's 38:22 over the same stretch. The margin between them at the finish was seven seconds.

Interesting Notes

- This year Laura Brosius became the 13th multiple winner for women and the 8th consecutive winner; Saari became the 7th multiple winner.

- After his wins in 2004, 2005 and 2006, Mike Kramer did not race in 2007, missing the opportunity to become only the second runner, male or female, to win four consecutive championships

- Stan Justice, from 1980 through 1987, won 6 titles in 8 years; in 1982 he finished 2nd, 1:20 behind Bob Murphy and in 1983 he finished 2nd, 1:08 behind Pat Cross

- Bob Murphy holds the record for the longest time between his first win and his final (we think) win -- 16 years between his first win in 1978 and his most recent win in 1994. Had he run 6 seconds faster in 1995, he would have defeated Tony Davies, and the record would be 17 years between first and last victory. Nat Goodhue, one of the race founders, is next in this category, with 11 years between wins (1963-1974)

- Mari Shirazi (1994-1995), Tina Devine (1996-1998, 2003), Jane LeBlond (1999-2001), and Julie Udchachon (2004-2005) won 11 of the 12 races from 1994 through 2005. Susan Faulkner (1st in 2002) was the only other winner during this period.

- The 13 female multiple winners have accounted for the victories in more than 2/3 of the Equinox Marathons held to date (31 of 46); Male multiple winners have accounted for 27 of 46 victories -- just less than 60%.

This graph shows the number of men under 3:00:00 each year, as well as the number of women under 4:00:00, 3:45:00, 3:40:00, 3:35:00, and 3:30:00 each year. My purpose in generating this graph was to try to see if there is a female time equivalent to the men's "benchmark" time of 3:00:00. Other than a few blips in the late 70's and early 80's, the men's field has been pretty consistent, with zero runners, one runner(9 years) or two runners (8 years) breaking 3:00:00 most years. Only four times have there been three men under 3:00:00, and only twice have there been more than three men under 3:00 (6 in 1980 and 5 in 1982).

Until about 15-20 years ago, the women's benchmark equivalent was 4:00:00. However, while the difficulty men experienced in breaking 3:00:00 has not changed much, more and more women have broken 4:00:00. In 1986, three hours had been broken 33 times, and four hours had been broken 32 times by women. By 1999, four hours had been broken by women more than twice as many times as three hours had been broken by men (87 times v. 43 times); through 2008 it's almost 3:1 (174 to 60). Obviously, four hours for women is no longer the equivalent of three hours for men.

With that in mind, we tested 3:45:00 as a reasonable equivalent. However, that, too, proved to be somewhat of a moving target. In 2000 and 2001, the number of times men had broken three and women had broken 3:45:00 was about equivalent (45 men v. 43 women in 2000; 46 v. 47 in 2001). However, that has changed, too: through the 2009 race, there have been 61 performances by men under 3:00:00. Women have recorded 79 performances under 3:45:00 and 50 performances under 3:40:00

Taking a deeper look, we added to the data set the number of women's performances under 3:40:00 (50 performances), 3:35:00 (32) and 3:30:00 (16). , to the point of equivalence is probably somewhere around 3:41-3:42. If you look closely at the period SINCE 1983, it seems like the 3:35:00 line most closely resembles the 3:00:00 line for men.

One interesting note: in 1980 Pat Kling was the 5th woman to break 4:00:00 (after Mel Langdon, Carol Coe, Mara Rabinowitz and Helen Desinger). However, Pat was the first woman to break 3:45:00 and 3:40:00 (3:37:59 in 1981). In 1982, Pat missed, by 53 seconds, becoming the first woman to break 3:35:00. The very next year, 1983, Nancy Felix became the first woman to break 3:35:00 and nearly broke 3:30:00 (3:30:34). In 1989, Felix did become the first woman to break 3:30:00 with a 3:25:19. Tina Devine was the first to break 3:25:00 with a 3:21:21 in 1998. Susan Faulkner and Jane LeBlond became the only two sub-3:20:00 runners with their stirring duel in 2002, Faulkner winning the race in 3:18:16 to LeBlond's 3:19:59.

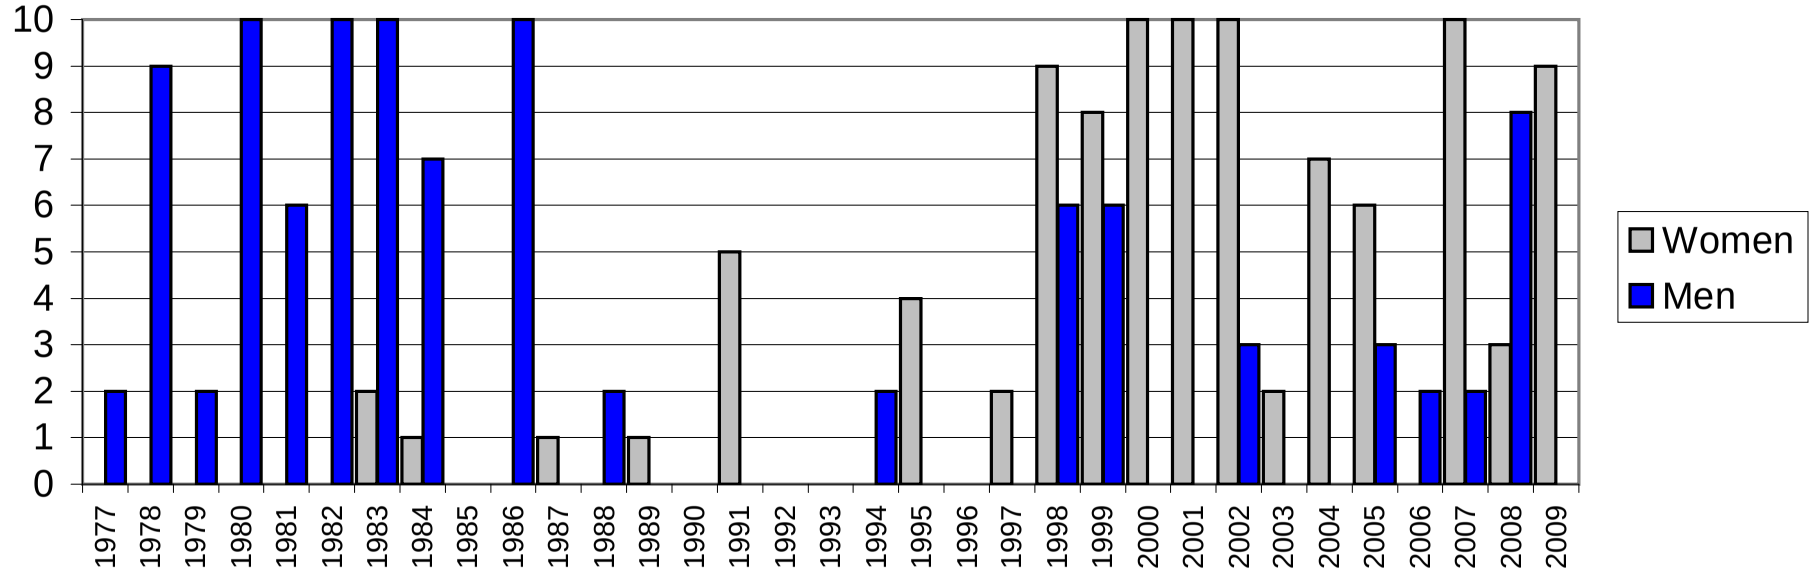
What Are the True Glory Years of the Equinox Marathon?
Number of Performances per Year in 10 Fastest All-Time Top 10



The graph above shows how many of the times for the first 10 finishers in a given year are still among the 10 fastest times for one of the top 10 places. The entire men's top 10 are on this list from 1980, 1982, 1983 and 1986; for women, the whole top 10 have made this list four times: 1999-2000-01 and 2007, and nine of the top 10 in 1998 and this year ('09). That is a sign of not just a fast race, but a deep field.

As you can see, the "glory years" for the men were from 1978 through 1986. In that 9 year period, runners recorded 68% of the 10 fastest times for the top 10 places. Included in that period was the "snow year" of 1985 when times were slow. Some hot performances in 1998 and 1999 gave hope that another "glory years" era was on the way on the men's side. However, that has not proven to be the case. After a brief lull, some faster times have resumed. However, the first three finishers in the 2005 race (Kramer, Saari, Brinegar) all posted times among the all-time top 10 for their finish positions. Three more performances in 2006 (Saari, Rover Sayre, Evan Hone) and two in 2007 (Saari and Harald Aas) have also elbowed their way onto this list. The 2008 race was the first time in 22 years that eight or more men recorded all-time top 10 times, but in 2009, the men were shut out, with only Stian Stensland's 11th-ranked time for second place coming close.

The women's "glory years" have been from 1998 through 2007. During that 10-year span (including the "snow year" of 1996), women recorded 78% of the fastest times. Seven women are responsible for 38% of the best times: Laura McDonough, Susan Faulkner, Kristen (Bartecchi) Rozell and Jane Lanford each have posted six of the fastest times, Tina Devine and Michelle Mitchell have posted five each, and Jane Leblond has posted four. The ultra deep 2007 women's race showed that 2006 was an anomalous dip in the depth of the field, not a sign of the end of an era. After a fairly weak '08 race, the women bounced back in '09 with nine times that made the list - only Brosius' winning time did not earn a spot.

This graph displays the year-by-year age group records for women and for men. In addition to the actual data, the graph includes trend lines which show a smoother version of the data. As you can see, although there are some anomalous numbers at the old and young extremes of the age records, the 20-to-55-year old range is remarkably consistent.

Also, note that the trendlines for women and men nest nearly perfectly. This means that the peak performance years for women and for men are virtually the same: 30-40 is the narrowest part of the peak, and 27 to 42 or 43 a little broader peak. It's worth noting that the three fastest times by women have been at either end of the peak (Faulkner at 42 and Leblond at 27) and right in the middle (Devine at age 36). The top men's times cluster much more closely in the middle of the peak years. Other than Pat Cross's second-fastest-ever 2:42:20 at age 23, the other five fastest times were recorded by Stan Justice between the ages of 31 and 37.

The difference between the sexes actually seems to increase with age. In the 20's, the typical difference is just over half an hour; by the time runners get to the late 40's, the difference gets closer to one hour. So, either we have very tough young women (or weak young men), or we have very tough old men (or weaker older women). It will be interesting to see if these curves change significantly over time.

Equinox Marathon - Close But No Cigar
The Best Runners Never to Win the Equinox Marathon

There are a number of outstanding runners who have run fast times and had high finishes, but who have never made it to the top step of the Equinox Marathon awards podium. Below are listed the Equinox Marathon histories of what I believe to be the best runners who have never won.

To winnow things down a little, I applied these standards: Women: must have finished in the top four at least twice, and must have run sub 3:50:00 at least three times; Men: must have finished in the top four at least twice, and must have run under 3:05:00 at least twice.

These standards eliminated female runners Linda Huyck (3:28:17 in 2002), Kat Betters (3:30:34 in 2001), three-time runner up Barb Page (1969-70-71) and Mary Ellen Laberge (2nd, 2x3rd and 5th between 1988 and 1995). Among men, Audun Endestad (2:52:47 in 1983) and Guy Thibodeau (2:53:05 in 1982), not to mention two-time runner-up Donn Wells (1976-77) and Forrest May (4th-3rd-2nd in 1972-73-74) were eliminated.

	1999	37	3:03:57				4		

In the last three years two runners have taken themselves off this list. In 2006 Laura McDonough, at age 45 the oldest female winn in 30 years (Marcie Trent won at age 58 in 1976) won the Equinox at a relatively late stage in her distinguished and consistent career.

Matias Saari got the "close but no cigar" monkey off his back with a victory in 2007. Saari, with his win (and another win in 2009) a his three fast times in 2005-06-07 migrated off this list and onto the "Legends of the Equinox" list, mostly on the basis of his times.

In my mind, one male and one female runner stand above the rest. Michelle Mitchell, with three sub-3:35:00 times in addition to a 3:38:17 and 3:42:24, a second place, a third place and three fourth-place finishes beats out Dianne Munson, who was runner-up three consecutive years - she had the misfortune to run second to Sue Chapman's record time in 1985, and then was runner up to Bobbi Fy during her heyday in 1986 and 1987. Both Michelle Mitchell and Kristen Rozell are still in their running primes, so their membership in group may not be terminal!

For men, Everett Rubel is clearly at the top. He is the only runner to have broken 3:00:00 four times and never to have won. Only Justice and Murphy have broken 3:00:00 more times than did Everett Rubel. Rubel went sub-3:00:00 three times while still in his teer It's hard to decide between Mike Johnson and Harlow Robinson for next-best, but I think Harlow gets the nod. His five races with consistent times and top finishes outweighs Mike's great 2:54:27 in 1986. Robinson is still active and running fast, so he may be able escape this group in the next few years. Kent Karns, with his two sub-3:01's, beats out Dave Bloom and Ken Zaklukiewicz as the best male runner never to finish 1st OR 2nd.

In 1983, Karns, Rubel, Johnson and Bloom finished 4th, 5th, and tied for 7th in head-to-head competition.

Equinox Marathon - Consistency Rewarded
Highest Quality Consecutive Multi-Year Streaks

The Equinox Marathon rewards many qualities. When it comes to the statistics of the Equinox Marathon, one of the rarities is long streaks of high performance over consecutive years. I have arbitrarily and capriciously established seven years as the minimum standard for a runner to qualify to be evaluated for a high-quality consecutive-year streak. Why seven? Well, there were a lot of four-year and five-year streaks, and even a six-year streak or two. By definition, if something is common, it's not exceptional. We're looking for the exceptional.

Establishing such a long consecutive-race streak eliminated some outstanding shorter streaks: Kevin Brinegar's three straight wins from 1999-2001; Mike Kramer's 2004-06 win streak; Bob Murphy's 1st-1st-2nd in 1978-80. Everett Rubel never won, but had a great five-year run from 1979-83.

For the women this eliminated Jane LeBlond's three straight wins from 1999-2001 (and 2nd in 2002). Marcie Trent had a great five-year streak from 1970-74 and a four-year streak from 1976-79,

Stan Justice's eight year streak from 1979 through 1986 is unparallelled among men. After that Matias Saari's past seven years have to be considered as the next-most consistent streak of high-qualty performances, with only two wins (2007, 2009) but five sub-2:50's in that period.

Tina Devine has to be considered the Queen of Consistency, with a nine-year run that included four wins, and only one time over 3:50 -- and that in the snow year of 1996. Bobbi Fyten's seven-year run from 1985-91 is the second-best streak, with three wins, two runner-up finishes, and a couple of thirds. Pat Kling's 1978-84 stretch was only marginally worse - turn her fourth place in 1979 into a win, and she'd have the same record as Fyten.

Michelle Mitchell had a very good seven-year run from 1996-2002; no wins, but a second, a third, four fourths and a fifth. It is interesting that Mitchell was in her 20's for this whole stretch; not one other peformance, among all the streakers, occurred during a runner's 20's.

Equinox Marathon - Oldies but Goodies
"Les Eminences Grises" of the Equinox Marathon

The Equinox Marathon is a race for participants of all ages. If you look at the results and the graphs of the winning times and ages of the winners, you can see that the "prime" of a runner's career, in most cases, is from the mid-to-late 20's to the mid-to-late 30's.

However, a cursory inspection of the data also reveals that there have been several outstanding results by runners 40 years of age and over, the age group generally regarded as "Masters". Below are the performance records of the best of the "Oldies but Goodies" group, from age 40 on.

Among women, there can be no doubt that Marcie Trent is the "Grand Dame" of the Equinox Marathon. From age 50 on, she had three victories (at ages 52, 55 and 58), two second-place finishes, and four third-place finishes. Jane Lanford is probable the second most prolific quality runner, with four top 5's and seven top 10's from age 41 through age 50. This year Laura McDonough became the oldest runner not named Marci Trent to win the race, with her 3:50:50 - her 6th top 10 past age 40. Dorli McWayne (4th in 2006) and Maryellen Laberge (five top 10's), Susan Faulkner (four top 10's each) round out a pretty clear "top six" women. Faulkner is the second-oldest woman to have won the race other than Marcie Trent, setting a course record of 3:18:16 at age 43 in 2002. Other 40+ winners are Tina Devine (41 in 2003), Bobbi Fyten (40 in 1990), and Dolly Lefever (42 in 1988).

For the men, things aren't quite so clear cut. Bob Murphy is the only man to have won the race in his 40's, with a 3:01:21 victory in 1994 at age 42. The next year he was runner-up in 2:58:28, when he became only the 2nd 40+ runner in Equinox Marathon history to break 3:00:00 (Frank Bozanich ran 2:58:01 at age 44 in 1988). "Murph" has had three top 10's and four top 15's after turning 40.

Andy Holland, Rocky Reifenstuhl and Jim Decur all have something in common - each has run the last ten Equinox Marathons (all after turning 40), posting outstanding times for their ages. Holland has three top 5's, six top 10's, and eight top 15's in those nine races; Reifenstuhl, 10th this year at age 54, has two top 5's, six top 10's (seven top 11's), eight top 15's and three age records (50-51-54); Decur has one top 10, seven top 15's, has not finished lower than 17th in those nine races, and owns age records for ages 53-54-55-56-57.

Wayde Leder posted his first top-10 finish in 2000 at age 43. Since then he has never finished lower than 7th, and has been in the top five four times. He pace his way to another 4th-place finish this year.He owns the age 45, 48 and 49 records. This year Wayde took the age 49 record from Rocky, but Rocky added the age 54 record to his quiver.

Other items worthy of note among the male runners:

* Six-time Champion Stan Justice had two 2nd-place finishes in his forties, at ages 40 and 42
* Richard Burton's age 60 time of 3:32:44 is head and shoulders above all the other 60+ times; this performance placed him 16th overall, the best finish ever by anyone 60 or over
* Wade Leder is the oldest 5th-place finisher, doing so at age 48 in 2005
* Rocky Reifenstuhl is the oldest 4th-place finisher (age 48 in 2000)
* Andy Holland is the oldest 4th-place finisher (age 44 in 2000)
* Frank Bozanich (44 in 1988) and Wayde Leder (44 in 2001) are the oldest runners-up
* Ron Noel ran two outstanding times at ages 46 and 48, and still holds the age 46 record, set in 1982
* Race founder Nat Goodhue finished 5th at age 47 in 1987; rumor has it he's coming back in 2007 at age 70 to see what he can do

There are many more nuggets in the data below. Enjoy!
